Do You Know Where Your Gate Valve Is?

Just like the District exercises our valves, home owner's should also exercise theirs. Near your District meter box, there should be another round concrete box. Inside the round concrete box is your Gate Valve. This valve shuts off the water to your property. Everyone should make sure they know where it is and that it is easy to turn. So many wait until they have a leak and then they go looking for their shut off valve and can't find it. Being prepared can save you time and frustration. If you need help locating yours, please contact the District Office.
