Board of Director's Meeting: February 19, 2020

Approval of Financial Statements for Fiscal Year

2018-19: Ms. Kayla Horton of the accounting firm Horton, McNulty and Saetern, presented the District's Financial Statements for Fiscal Year Ending June 30, 2019. The Independent Auditor's Report contains the opinions of the accounting firm regarding

their review of the District's financial position as of June 30, 2019 and the results of its operations and changes in net assets and cash flow for the year. The review was conducted in conformity with the accounting principles and systems prescribed by the State Controller's Office and State regulations governing Special Districts.

Office Remodel

Acceptance of the Office Conversion Project:

The Board of Director's unanimously accepted the Office Conversion project and authorized the Manager to file a Notice of Completion.

We would like to thank North Valley Builders for doing such a great job creating this new lobby space, and we encourage everyone to stop by and check it out.

AC Pipe Testing

Operator staff is planning to take the 5th sample of the District's AC pipe along Placer Road just east of the District Office. The District will be testing a total of six samples in different soil types within Centerville to evaluate the AC pipe's current condition as well as better

forecast its remaining useful service life. In order to obtain the AC Pipe sample, water must be shut off in the sample area. Please call the District Office to make sure we have your current contact information on file to ensure you do not miss a notification of any nature.

Quotable Quotes: May your troubles be less and your blessings be more; and nothing but happiness come through your door!

Author: A Very Wise Leprechaun

Value of Water

Water is essential to life – both as a basic human need for survival and as an “ingredient” in almost everything we do, from food production to manufacturing to power generation.

You likely already appreciate that water is a precious commodity. For example, a human can survive at least three weeks without food, but can go only about three days without drinking water (or water-based liquid) before dehydration becomes a medical emergency.

Nonetheless, in the U.S., we commonly take access to quality drinking water for granted, and this water presently comes to most people in the U.S. at a very low cost—just cents per gallon.

Here is a little comparison just to put your water costs into perspective...

Local stores typically sell a 24-count case of 16.9 oz water bottles (Which is a total of 3.25 gallons) for **\$9.98**. **This is \$3.07 per gallon.**

Centerville CSD sells 748 gallons for \$1.04. This is \$0.001 per gallon. Even if you add in the Base Rate of \$28.75, Centerville’s rate per gallon is **\$0.039 per gallon.**

When you pay your water bill, you are not only paying for the water you used, but also for all that it takes to treat and deliver it to your residence.

We look forward to continuing to provide a reliable, adequate supply of high quality water, at the lowest reasonable price, in an environmentally responsible manner to you each and every day!

Grant School Kindergarten Round-Up

If you have or know of, a child who lives in the Grant School District and will be attending kindergarten next year, now is the time to come by the office and sign up. Kindergarten registration packets were mailed in mid February; however, if you contact the office you can still receive one. Children must be 5 years old by September 1, 2020 in order to register for the 2020-2021 school year. Parents of children turning 5 between September 2nd and December 2nd, 2020 should call the office for enrollment options.

Public Safety 10-10 Survey

The Redding Police Department is asking that we all participate in a ten question survey to help them better serve the community. The survey should not take any longer than ten minutes.

You can take the survey at: www.reddingpolice.org.

Thank you for your participation.

Average Water Usage

Compare the usage on your water bill with the average of the District.

February’s Average: 1,900 cubic - feet.

SCHEDULED BOARD MEETINGS:

The next scheduled Board of Director’s Meeting will be held Wednesday, March 18th at 7:00 pm, at the District Office.

The public is always welcome.
